WATERPROOF CASE protects the Enforcer

# ENFORCER

## Load Cell Kit

**CLASSIFIED**  
**UL** UL Classified to NFPA 1983, General Use

**CE** EN795 EN354

**USA**  
**MADE**

### SPECIFICATIONS

**Max Reading** 20 kN  
**MBS** 50 kN  
**Accuracy** -/+2%

**Length** 8" (203 mm)  
**Width** 2" (53 mm)  
**Weight** 14 oz (397 gm) with batteries

The CMC Rescue Enforcer is the **only** load cell certified to NFPA 1983, General Use. This compact device can measure force up to 20 kN, and with two sampling modes, the Enforcer monitors systems and logs drop testing in high resolution. Lightweight (14 oz) aluminum construction and a compact, portable design for in-line use in rigging systems. Swivel attachment points diminish potentially dangerous torsional and off-axis forces. The Enforcer records and downloads graphs of 4-second dynamic events.

**THE ENFORCER APP** for iOS devices greatly increases capabilities of the Enforcer Load Cell, adding the ability to monitor static forces remotely and record dynamic events at up to 500 samples per second. With the app you can also view a graph of the force or send as an email attachment for further analysis. App developed by Ourea s.l.f. Sold separately through the App Store.

### TWO SAMPLING MODES

Slow Mode for monitoring, Fast Mode for drop testing.

### LARGE DIGITAL READOUT

For ease of visibility.

### BLUETOOTH TECHNOLOGY

Indicator lets you know when you're connected.

### KIT INCLUDES

Enforcer Load Cell, Waterproof Case, Screwdriver and two AAA Batteries.

**KIT WEIGHT 1 LB, 14 OZ (851 GM)**

### VERSATILE UNITS

Measures force in kN, lbf and kg.
